WINUAE DX ICONS

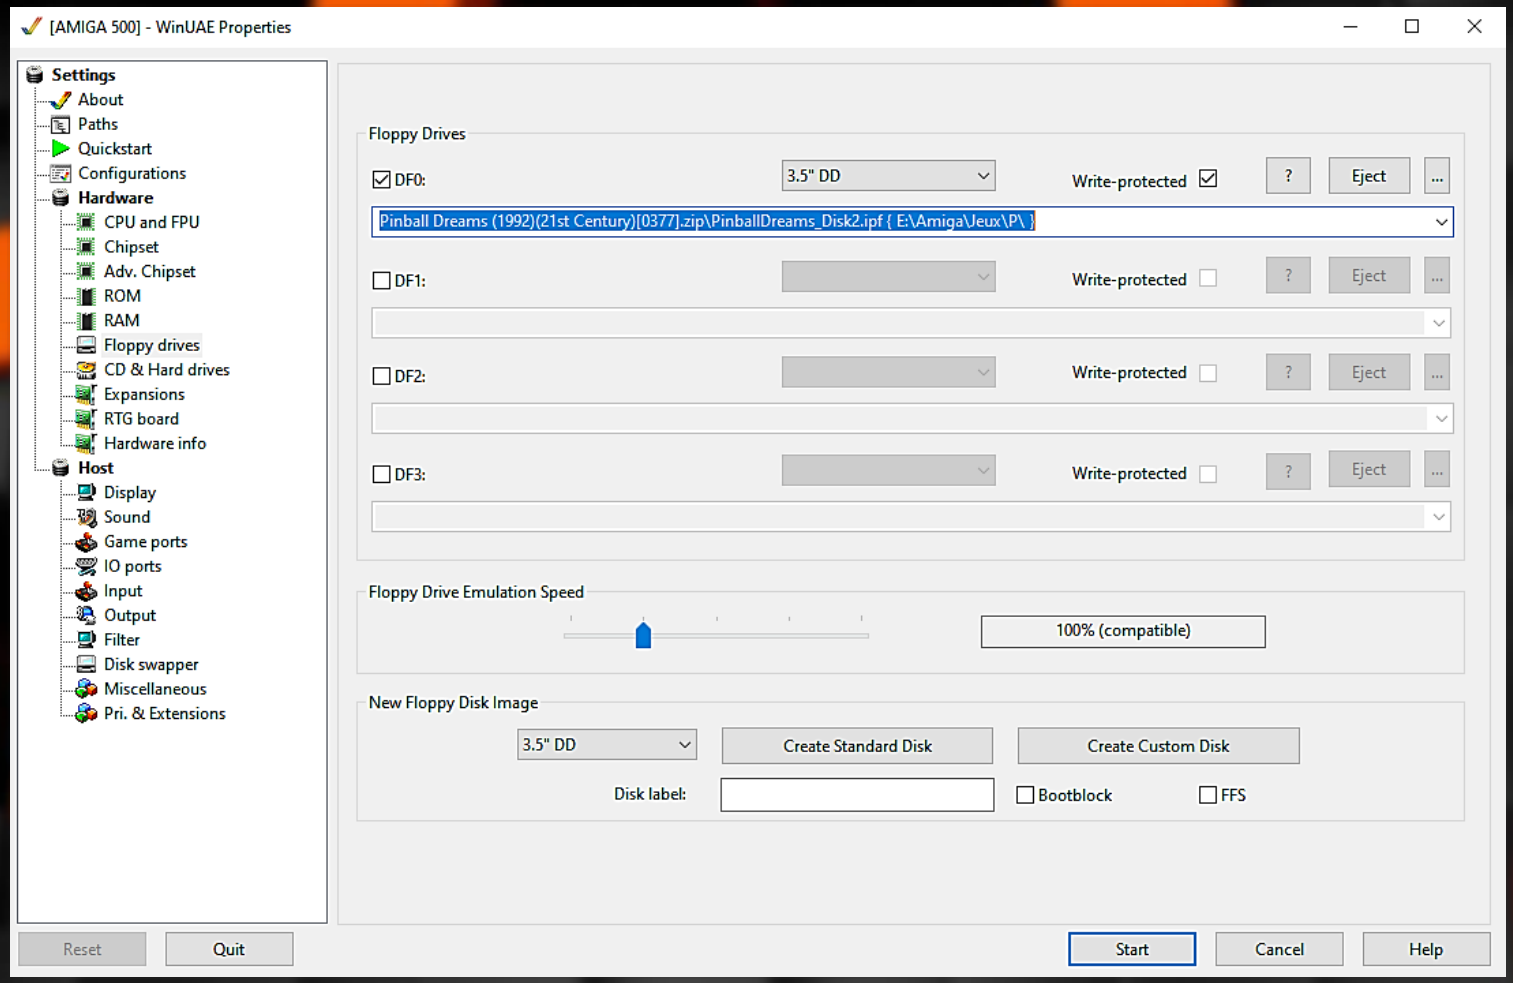

QUICK-STEP GUIDE

- *Create a « Game » directory in .../WinUAE/Configurations*

-

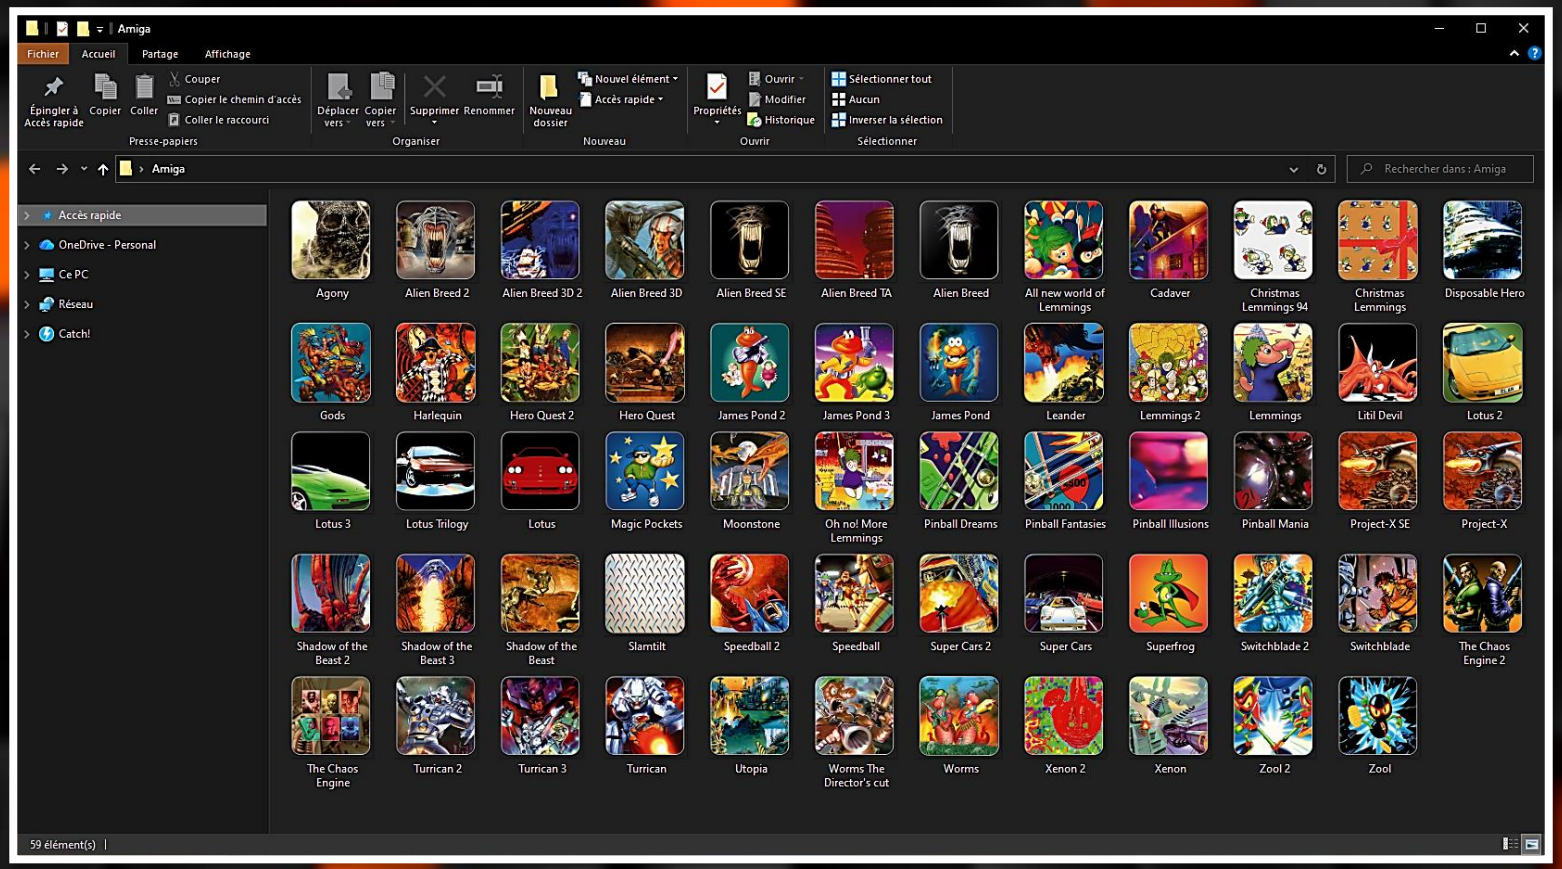

- Choose one adapted configuration in WinUAE depending of the game (You can use the full configurations pack « MagicUAE » available on our website).

- Load your Game file in the « Floppy drive » or « CD & Hard drives »

- Save your configuration in your Game directory by giving it the Game name.

- Use « Copy/Paste a shortcut » on the configuration file and change the icon

- *Repeat the same operation for each game*

You're now ready to launch your games from your WinUAE DX Icons.
